- 2) Random substitutions for players may not occur during any stoppage of play such as resetting the clocks, checking on an injury, or the retrieving of a cap.
- 3) If a team has possession of the ball and a double exclusion is called, that team will remain in possession of the ball, and the possession clock is reset.
- 4) An excluded player, whose team is not in possession of the ball, re-enters improperly, the offending player is excluded for 20 seconds, and a penalty throw is awarded.
- 5) If requested by one coach or team captain, the teams must change ends and benches after each quarter, including the first two periods of extra-time.
- 6) As long as the ball is in the field of play and outside of 2-meters, all free throws are taken from the location of the ball.
- 7) Whether occurring during live time or dead time, all double exclusions result with a single team being awarded the ball.
- 8) A head coach must remain behind his/her team's goal line to talk to his/her players when his team is on the defense.
- 9) Minor acts of MISCONDUCT are penalized with a 20-second exclusion.
